In 2023, Radian Guaranty Inc. released a Timely Topics video addressing mortgage cost and affordability challenges related to natural disasters. Since then, these concerns have only intensified.

→ [Radian Timely Topics: How Natural Disasters Impact Mortgages](#)

Current Situation

- » Several devastating storms have already hit parts of Texas and Florida
- » Concerns about natural disasters persist
- » New worries about home and mortgage affordability are emerging

Rising Insurance Costs

Recent Trends

- » Average annual homeowners insurance (HOI) renewal premiums have increased by almost \$900 since 2021
- » This represents a 69% increase compared to initial 2021 costs

National Association of Realtors (NAR) Report

→ [REALTOR® Magazine - States Where Home Insurance Costs Are Surging Highest](#)

- » National average homeowners insurance cost: \$2,377 per year
- » This figure represents a 20% increase over the past 2 years
- » Costs may continue to rise in 2024

Future Projections

- » NAR expects rates to increase further in 2025
- » Coastal areas experiencing more damage from natural disasters will be particularly affected

Regional Impacts

- » Areas facing significant increases include: South Florida, Coastal California and Parts of the Gulf Coast
- » Some regions could see insurance cost increases of up to \$500 per month
- » Some areas may struggle to find insurance at all

Impact on Borrowers

- » Affording a mortgage may become more difficult
- » Rising costs lead to increased debt-to-income (DTI) Ratios
- » Higher ratios make mortgage qualification more challenging

Radian Guaranty's MI Solution: CustoMize SplitEdge®

Radian Guaranty offers several Mortgage Insurance (MI) solutions. CustoMize SplitEdge may help balance out the increased expenses.

How It Works

- » Borrowers pay a portion of the MI premium upfront, allowing for a lower monthly premium payment
- » The lower monthly MI payment could help reduce the borrower's DTI ratio
- » This reduction may offset the increased monthly cost of HOI

Benefits

- » May make homeownership more affordable and attainable
- » Could bring debt-to-income ratio back into a qualifying range
- » Provides options to support the dream of homeownership

Example Scenario: CustoMize SplitEdge in Action

A borrower is looking to purchase a home in Miami, Florida, with a 5% down payment and a loan amount of \$405,000. The HOI quote was \$350 per month.

Can CustoMize SplitEdge help reduce the borrower's monthly payments?

Yes, CustoMize SplitEdge can help reduce the borrower's monthly payments. Here's how:

Original MI Option

- » Radian Guaranty's Borrower-Paid Monthly with Monthly MI payment: \$128

With CustoMize SplitEdge:

- » Upfront MI premium: 1.5% of loan amount (\$6,075)
- » New monthly MI premium: \$33.75

Result

Comparison of total monthly payments (MI + homeowners' insurance):

- » Without CustoMize SplitEdge: \$478 (\$128 + \$350)
- » With CustoMize SplitEdge: \$383.75 (\$33.75 + \$350)
- » Monthly savings: \$94.25

Using CustoMize SplitEdge is a potential way to bring the borrower's debt-to-income ratio into a qualifying range, and may help make homeownership more affordable and attainable.

Scenario pricing based on 780 FICO, SFR, 30-year fixed, 30% MI Coverage, 1 borrower, 40% DTI, owner occupied, purchase; scenarios provided for illustrative purposes only do not constitute a commitment or the guarantee of a specified rate. All programs and availability are subject to credit, underwriting and property approval. Programs, rates, terms and conditions are subject to change without notice. Other restrictions apply.
